ALTO MESA - TRADITIONS

The town of Alto, Texas, is just six miles from the Caddo Mounds Historic Site, one of the most complete archeological sites in North America. The original name of this Mississippian settlement has been lost to time. It was created in approximately 800 CE, with major construction between 1100 and 1300 CE. The pattern of manmade hills has bands representing the Camino Real de los Tejas, an ancient travel route, running parallel to the mounds.

Spot clean. Body is 100% Virgin Wool with 100% Polyester and Cotton contrast and lining, and 100% Cowhide Leather trim. Imported of USA wool, available 4/25

SAWTOOTH MOUNTAIN - TRADITIONS

The Sawtooth Mountain range covers 678 square miles, from which it dominates the landscape of Central Idaho. The range was named after a large two-handled saw with serrated teeth used by early loggers in the region. The pattern shows the jagged height of these rugged peaks, which reach 10,751 feet at the summit of Thompson Peak. The Sawtooth Wilderness was officially created in 1972, and is considered the "Crown Jewel" of Idaho, the Gem State.

Spot clean. Body is 100% Virgin Wool with 100% Polyester and Cotton contrast and lining, and 100% Cowhide Leather trim. Imported of USA wool, available 4/25

The PENDLETON® HARDING PATTERN

SINCE 1923

CELEBRATING 100 YEARS OF PENDLETON'S HARDING PATTERN

A new commemorative color celebrates 100 years of the Harding pattern with a refreshed layout. In 1923, President Warren G. Harding and First Lady Florence Harding visited Oregon's Blue Mountain Country to dedicate a portion of the Old Oregon Trail. At the ceremony, leaders of the Cayuse and Umatilla Nations presented Mrs. Harding with a newly designed blanket to reflect their admiration of her sincere and forthright nature.

For a century, the Harding pattern has been one of Pendleton's most sought-after signature patterns. This bright, exciting ombre celebrates its evergreen popularity.

OPAL SPRINGS - CANOPY CANVAS COLLECTION

Inspired by pieced quilts, Opal Springs offers a modern take on a traditional craft. Near the tiny town of Culver, early travelers to Oregon found a natural spring within a plunging gorge on the Lower Crooked River. Transfixed by jewel-like stones bubbling up in the icy waters, they named this place Opal Springs. This pattern uses a quilt-like arrangement of shapes to show the movement and beauty of those stones—naturally polished agates—churning in fresh springwater.
